16th September 2026

Advance Notice of Planned Line Shutdown – NHQ series (NTC Type SMD)

Dear Distribution Partner,

We would like to inform you of a planned temporary shutdown of our production line to facilitate relocation to a new facility within the same country.

The shutdown is currently scheduled to begin on **1st January 2027 through March 2027**, with production expected to resume in April 2027.

A comprehensive list of part numbers that will be affected during this period is attached.

To help ensure continuity of supply and minimise any disruption to your business, we kindly request that you review your anticipated requirements and provide either:

- Forecasted demand through April 2027, or preferably
- Purchase orders covering your expected needs from December 2026 through April 2027

Action Required

Please submit your forecasts or purchase orders for affected NHQ products as soon as possible, and no later than 30 November 2026.

After 30 November 2026, any new demand not covered by submitted forecasts or purchase orders will be subject to extended lead times of approximately 29 to 33 weeks.

We are committed to making this transition as smooth as possible and will continue to keep you informed of any updates to the schedule.

We apologise for any inconvenience this may cause and greatly appreciate your understanding, cooperation, and continued support.

Yours sincerely,

Rick Gleixner

Rick Glexiner
Product Manager – Industrial Market
