Product change notification (PCN)

Title / short description	Inline ... - Elimination of printed packing slips, change of packaging
Affected article category	SPS and I/O systems
Change category	Documentation, Packaging
Change number	CDR230090-00
Reason for PCN/PDN Revision	

Purpose/objective of the change

Environmental protection, packing slips

Detailed description of the change

We strive to avoid generating unnecessary waste, both in terms of packaging and package contents. Therefore, in future, the packing slips of the listed products will only be available digitally, with a QR code printed on the labels. A hardcopy of the packing slip will no longer be included. Mixed deliveries may be shipped during the transition period.
Similarly, from this change onwards, an antistatic coating will no longer be used on the packaging carton.
With the introduction of the QR code, the entire page printing will be redesigned. The previous bar code is replaced by a data matrix code, which contains further module information in addition to the serial number.
Similarly, from this change onwards, an antistatic coating will no longer be used on the packaging carton.
The effective date of the change is in the past because this product change notice affects many items, and the transition cannot be scheduled for a specific date. The first products have been updated since the specified date.

Identifying characteristics

QR code and the increased V/C on the packaging label .

Start of Production (SOP)	-	**Last Time Delivery (LTD)**	-
Effective date (EOP)	2025-04-01	**End of Service (EOSR)**	-
End of Sales (EOS)	-		

Short-term change (< 6 months) or discontinuation (< 12 months), due to:

- ☐ Software / Firmware Bugfix
- ☐ Short-term delivery stop by supplier
- ☐ Short-term recall by supplier
- ☐ Force majeure
- ☐ Product improvement with customer benefits
- ☐ Others
