Global Supply Chain Excellence

Increase Your Supply Chain Value

Consult With a TTI Supply Chain Team

TTI Supply Chain Excellence on a global scale is a collaborative process. Our people- and parts-focused approach provides you with a tailored supply chain solution that fits your needs. Based on a detailed analysis of your current purchasing process, we design an optimized solution including a set of Key Performance Indicators (KPI) that facilitate continuous improvement.

Analysis

- Strategy
- Bill of Materials
- Process

Design

- Demand Integration
- Demand Reservation
- Demand Trigger
- Demand Fulfillment

Performance

- Availability
- Process
- Reservation
- Bill of Materials

TTI manages agile supply chain programs that are responsive to the dynamic conditions of a complex global economy leveraging substantial industry expertise alongside competencies in logistics, procurement and process management. Our strategy of Supply Chain Excellence is driving an ongoing collaborative process for continuous improvement.

Supply Chain Excellence is not just a tool. It's a thought process. And the most important factors determining a company's value are the people working within the supply chain.

Our **people-oriented approach** in consulting provides the right supply chain solutions to meet your total cost objectives and ensure continuity of supply. These solutions help you optimize long-term capacity plans for production and warehousing.

Our **forecast and order management program** is the foundation of our supply chain solutions. We support all major supply chain transactions to enable an automated data exchange, improving data processing accuracy and increasing product availability and flexibility.

Our **project management** is focused on project goals defined in the design phase, along with performance control for continuous improvement. With drive, commitment and strong collaboration, we deliver success you can depend on.

TTI Supply Chain Excellence Increases Your Company Value With:

- Improved Availability with Reduced Capital Commitment
- Increased Process Quality and Productivity with Reduced Process Cost
- Minimized Risk by Automated Processes
- Flexible Reaction on Elasticity of Demand
- Increased Revenues From Reduced Lead Time Orders and Increased Part Availability

TTI Supply Chain Excellence Impacts all the Drivers for Company Value:

INCREASE OF REVENUES	REDUCTION OF COSTS	REDUCTION OF CAPITAL
REDUCTION OF RISKS		INTANGIBLE INCREASE OF ASSETS

QUALITY AND RELIABILITY

TTI is the first distributor to have all global warehouse locations ISO registered and currently are certified to ISO 9001 with AS9100 and ISO 14001 in North America, ISO 9001, EN 9100, ISO 14001 and EN 9120 in TTI Europe and ISO 9001 in TTI Asia.
