

February 6, 2026
Issue Number: 1066

Subject: Relocation of select 3M Connector Hardware and Shells mounting options

Effective immediately, 3M will be relocating kitting operations from the United States to Mexico. This will allow us to streamline our operations to better serve our customers globally.

No changes will need to be made to our SKUS or Country of Origin as those will remain consistent as they have in the past.

We do anticipate some delays on open orders and expect to be able to start shipping materials again in March. We have made changes to open orders to reflect the new dates. We apologize for any inconvenience this may have caused.

Thank you for your support of 3M.

Please See Appendix A for impacted products:

Brent Gossett
Portfolio Marketing Manager for Global Interconnect
bgossett@mmm.com

Appendix A
