Issue Number: 1068

Subject: Relocation of 3M™ High-Routability Internal SATA Cable Assembly 5602 Series

Effective immediately, 3M will be relocating manufacturing operations for 3M™ High-Routability Internal SATA Cable Assembly 5602 Series from China to Vietnam. This will allow us to streamline our operations to better serve our customers globally.

No changes will need to be made to our SKUS or Country of Origin as those will remain consistent as they have in the past.

We do anticipate some delays on open orders and expect to be able to start shipping materials again in April. We have made changes to open orders to reflect the new dates. We apologize for any inconvenience this may have caused.

Thank you for your support of 3M.

Please See Appendix A for impacted products:

Brent Gossett
Portfolio Marketing Manager for Global Interconnect
