APEM ref. MEC_PCN26

PRODUCT CHANGE NOTIFICATION – Change of Part Number

By this document, APEM announces a minor change of the ordering code for 500 pcs Ultramec Switches.

To avoid logistic issues when customers order 500 pcs Ultramec Switches, we have decided to use a new ordering code for these ½ reel orders. But for full reel orders of 1000 pcs, there will be no changes in the ordering code:

Switch Part Number:	Old Ordering code	New ordering code	Quantity per reel
6CJ1NOP	6CJ1NOPR	6CJ1NOPR500	500
6CJ1NOP	6CJ1NOPR	6CJ1NOPR	1000

This change is implemented today, and the corresponding Ultramec data sheet has also been updated with the new ordering code and is available for download on APEM.com

Best regards,

Morten Højdevang – Marketing Product Manager
