

Customer Communication N°: 1025/53 sheet 1/3
Date : 05-Mar-26

From : PESQUET Frédéric	Fax N° :
Phone N° : +336 12 97 47 05	E-mail : frederic.pesquet@aptiv.com

Object: Aptiv external communication about Product and/or Process evolution

This proposition is sent for :	☐	Approval request before change project launching
	☐	Change project information
	☒	Change start of production information (with first product delivery)

You will find here below data regarding a Product/Process change

Plastic Cap (Capacity Tool)
for Plug RCS800 SW and Plug RCS890 SW

	Aptiv P/N - Ref Aptiv	part level revision		Aptiv P/N - Ref Aptiv	part level revision	
		before	after		before	after
Désignation	35084575 (Plug 2w DM890)	04	04			
	35638408 (Plug 2w RCS800 SW)	02	02			
	35098453 (Plug 2w DM800)	02	02			

Change description	Object : Capacity tool for molding APTIV P/N _ 35082111 (Plastic Cap) _ Part level revision [Before : 02 / After: 02] New cavities are 11 to 14 - Same design than cavities 1 and 2 of actual serial mold Plastic Cap (APTIV P/N _ 35082111) used for the Plug 2w DM890 (APTIV P/N - 35084575), Plug 2w RCS800 SW (APTIV P/N - 35638408) & Plug 2w DM800 (APTIV P/N - 35098453)		
	Reason: ☐ Quality improvement ☐ Technical product/process improvement ☐ Restart of production after one year stop ☐ Manufacturing location transfer ☐ Bill of matériel updating ☐ Cost reduction ☐ Product version creation/suppression ☒ Capacity increase ☐ Documents updating ☐ Other		
	Harness maker pilot for XXX :		Harness maker for other OEM : A PPAP file will be sent upon request
	Harness maker pilot for XXX :		
	Further information : The first deliveries at SOP will be identified with a specific label (Blue Color)		

PROCESS MODIFIÉ
MODIFIED PROCESS

Object: APTIV external communication about Product and/or Process evolution

**PROJECT LAUNCHING
INFORMATION**

*This communication is send for your information.
Following APTIV assembly manual, this change has no impact on process in your plants.*

Previsional PPAP deadline : Week 18 / 2026

Previsional application deadline : Week 22 / 2026

This change will be validated by OEM and/or pilots harness maker appointed, following PPAP level requested by OEM.

In case of question on PPAP file or initial samples, please contact : sebastien.roy@aptiv.com

Samples for testing or other questions, please contact : rayan.cadermoidine@aptiv.com

Before delivery of first parts, you will receive a new communication confirming application deadline, and how these first parts will be identified.

File	Just after implementation we will provide if requested following elements :		
	Parts		
	Harness maker file /PPAP level 1		
	Customer drawing /	Is the drawing modified following to this modification ?	Yes No
	Assembly manual /	Is the assembly manual modified following to this modification ?	Yes No

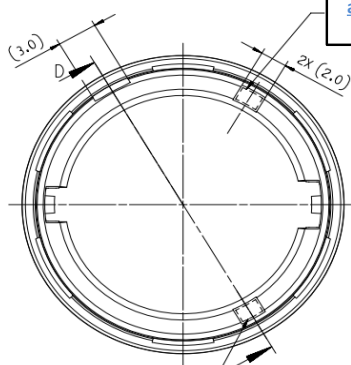

Object: APTIV external communication about Product and/or Process evolution

Capacity tool for molding P/N _ 35082111 (Plastic Cap)

Plastic Cap (APTIV P/N _ 35082111) used for the Plug 2w DM890 (APTIV P/N - 35084575), Plug 2w RCS800 SW (APTIV P/N - 35638408) & Plug 2w DM800 (APTIV P/N - 35098453)

MARKING

New cavities number :

11 to 14

[Same design than cavities 1 and 2 of actual serial mold](#)
