Object: APTIV external communication about Product and/or Process evolution

**PROJECT LAUNCHING
INFORMATION**

This communication is send for your information.

Following APTIV assembly manual, this change has no impact on process in your plants.

Previsional PPAP deadline : Week 39 / 2026

Previsional application deadline : Week 43 / 2026

This change will be validated by OEM and/or pilots harness maker appointed, following PPAP level requested by OEM.

In case of question on PPAP file or initial samples, please contact : **sebastien.roy@aptiv.com**

Samples for testing or other questions, please contact : **sylvain.bossuyt@aptiv.com**

Before delivery of first parts, you will receive a new communication confirming application deadline, and how these first parts will be identified.

File	Just after implementation we will provide if requested following elements :		
	Parts		
	Harness maker file /PPAP level 1		
	Customer drawing /	Is the drawing modified following to this modification ?	Yes ☒ No ☐
	Assembly manual /	Is the assembly manual modified following to this modification ?	Yes ☒ No ☐

Date : 14-Sep-26

Object: APTIV external communication about Product and/or Process evolution

Change start of production

The PPAP file for this change has been presented to OEM and/or pilots harness maker appointed, following PPAP level requested by OEM.

Without any particular request from them, first delivery are planned from **Week 44/2026**

In case of question on PPAP file or initial samples please contact : **sebastien.roy@aptiv.com**

For other questions, please contact the project leader : **sylvain.bossuyt@aptiv.com**
33402139

First delivery identification:

File	Just after implementation we will provide upon request following elements :		
	☐		
	☐	Parts	
		PPAP level x with included documents :	
		Customer drawing /	Is the drawing modified following to this modification ? Yes No
		Assembly manual /	Is the assembly manual modified following to this modification ? Yes No
