Subject: Transfer of eMobility Power Distribution Products

Dear *TTI*

On January 26, 2026 Eaton Announced the spin-off of its Mobility Group which includes Transportation Power Distribution products that you purchase today. These products for the most part are manufactured and sold from Eaton Electrical facilities that are not part of the spin-off. As such, we have set in motion to move the manufacturing and sales of this product into our Sure Power facility in Reynosa Mexico with distribution out of Hidalgo Texas.

The first part of this transition was to move our purchased parts from Ellisville MO. That required purchasers to change their supplier name from **Cooper Bussmann LLC** to **Sure Power Inc.** This activity is now complete. The second part of this process is to move our manufactured parts from Juarez MX and LaGrange NC to Reynosa MX. The Reynosa MX facility is 100% eMobility owned and goes with the spin-off. This second phase has three transfer levels that get more complex as they progress. In each case we are simply moving the equipment that is used today to the new location for final assembly. There are a limited number of new suppliers creating our sub-components but no changes in materials for that manufacturing location change. These will be fully documented for any supplier location changes for your review. The transfers are:

Transfer Stage	Production End Current Plant	Production SOP Reynosa	Stock Bank	Comments
1	Mid-August thru Sept 2026*	Mid-Oct thru Mid-Dec 2026	3-4 months stock	Simple complexity of assembly requiring minimal fixtures and machinery
2	11/23/2026	Mid-Feb thru Mid-Mar 2027	3-4 months stock	More complex assembly requiring movement of assembly machinery
3	03/21/2027	Mid-June thru Mid-July 2027	3-4 months stock	Highest complexity of assembly machinery movement.

*lines will continue until stock count is achieved.

Note that Transfer 2-3 won't be completed until after our Spin-off the Mobility group in Q1 2027 and our subsequent merger with Dana Corporation. Legal entity of this product line will remain as Sure Power through the merger thus simplifying the merger process for our customers. There is agreement within Eaton Corp that these transfers only be completed when there is sufficient safety-stock banked and the plan for moving equipment will be successful.

Open orders and new orders will be handled by your **Customer Service** staff in both the Juarez and Reynosa facilities to ensure a smooth transition. To simplify the process we request that all new POs be sent to Sure Power for these parts as soon as the parts moving are transferred in your system. After the Spin-off and merger with Dana, all open orders will be automatically transferred to Sure Power and no new orders will be accepted by Cooper Bussmann.

EDI order movement between Cooper Bussmann LLC and Sure Power Inc, is supported by:

Jeromy Mitchell, Tel: +52 899 921 7437 | US Phone: 440-523-6183 | Cell Phone: 956-330-9436
jeromyfmitchell@eaton.com

Quality documentation including PPAP requests are supported by:

Roberto Castaneda Garcia, Cell Phone: +52 899 507 8260, RobertoRcastaneda@eaton.com

A list of parts and their transfer stages is included with this notification. Photos of the work stations and equipment transferring are available for all parts. We appreciate your partnership through this change. If you have questions, please reach out to your sales representative or our customer service team.

Sincerley

Mike Meleck
Director of Sales LVPC
Eaton Mobility Group
