ITT Cannon

PCN Number: PCN26003WN

Location:

PCN Date: 3rd February 2026

Customer: TTI Inc.

Weinstadt

Issued by: Nadja Heckenberger
Product Management

Dear Valued Customer. With this letter ITT Cannon informs you of the following change(s) to the respective ITT Cannon Product. In case of further questions about this change(s), please contact your local ITT Sales or Customer Service representative. Affected part, drawing and or specification numbers are listed on the attached sheet(s)

Affected Product(s) / Product Line(s):

192990-0350 – Trident Snap Together (TST) Plug 2-way

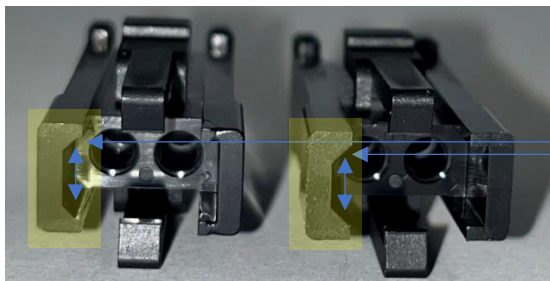

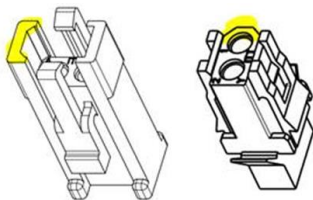

121587-0010 – Trident Flame Retardant (TFR) Plug 2-way

Description of Change(s):

This letter is to inform you about changes we have already done in 2024. We have improved the profile/geometry of the connectors to eliminate incorrect mating.

Reason for Change(s):

There was a possibility of reverse assembly. The connector was possible to mate either way, even these connectors have a profile/geometry (see yellow marking) to ensure the plug and receptacle is mated the correct way.

Left side: Old version

Right side: New version with
corrected angle and longer slope.

Timeline:

We started production of the improved version in Q4 2024.
