Dear Business Partner and Valued Customer

We would like to inform you of a temporary change in the packaging trays used for the MX34R, MX67A, MX77A, and MX77E series.

Reason for the change

We have received notification from the manufacturer of our products that they may be unable to procure the materials used in the trays due to the situation in the Middle East. In order to continue shipping our products, we will temporarily change the material specifications of the trays.

Details of the change

We will temporarily change the material used for the trays as follows. The tray's colour changes from green to black. There are no changes to the tray manufacturer or the material supplier. There are also no changes to the tray design. Please note this will not affect the connector performance.

Timing

Implementation Date: May 2026

This is strictly a temporary change. We will revert to the original settings once supply stabilizes, but since nobody knows how long the Iran war will last, we cannot make any firm commitments.
