

Product Change Notification

Film Capacitors Flammability for IEC60384-14 ed.5

November 17 th , 2025	ID Number (MMDDYY): PCN-111725-KB					
Affected Products	PHE840E - PHE840M - PHE841 – PHE850 with volume ≤ 1750mm ³ See Annex 1 – Customer list Annex 2 – PNs in the catalogue Annex 3 – PNs in the system					
Change	<p>For some of the certification schemes (ENEC, UL, CQC) the new Edition 5 of IEC60384-14 will come into force from Q1 2026 and Yageo is already working for being ready and have all the certificates updated for that date.</p> <p>In order to minimize the impact on Customer side, Yageo is planning to involve in this update also the series already defined as “Not for New Design” as for example the series PHE840E - PHE840M - PHE841- PHE850</p> <p>For the affected products the passive flammability category reported in the product marking will change: Current category “B” → future category “C”</p> <p>The marking change will not impact the actual flammability performance that will remain exactly the same as in the past for the affected products.</p> <p>Example:</p> <table border="1" style="width: 100%; border-collapse: collapse;"> <thead> <tr> <th style="width: 50%; text-align: center;">Current marking (for volume ≤ 1750mm³)</th> <th style="width: 50%; text-align: center;">Future marking (for volume ≤ 1750mm³)</th> </tr> </thead> <tbody> <tr> <td style="text-align: center;">  </td> <td style="text-align: center;">  </td> </tr> </tbody> </table>		Current marking (for volume ≤ 1750mm ³)	Future marking (for volume ≤ 1750mm ³)		
Current marking (for volume ≤ 1750mm ³)	Future marking (for volume ≤ 1750mm ³)					
						
Justification and Benefits	<p>In order to optimize certification time and resources and standardize the marking for analogous series, the passive flammability category for all the product with volume ≤ 1750mm³, independently by the series name and maturity level, will be standardized as “passive flammability category C”.</p> <p>This will be evident both at product level, as identified in the marking, and at certification level. Currently the affected series are no more included in the catalogue, due to their status, so there’s no need to update the current catalogue.</p> <p>For the affected products the change will impact only the passive flammability marking, without influencing the product form, fit, or function, including passive flammability performance, as the products will be manufactured with the same materials and processes.</p> <p>The decision was taken to reach an effective standardization of analogous series and to include in the certification update also the series already defined as “Not for New Design”.</p>					

Effective Date and Identification	The change of marking for the affected product will be in place starting from production of March 1 st 2026
To discuss potential alternative solution	For any request of support for identifying alternative solution as close as possible to Customer needs, please contact Product Managers: EMEA: Katerina Bozhinovska, katerina.bozhinovska@yageo.com ASIA: Eric Yang, eric.yang1@yageo.com AMERICAS: Viktor Kubicek viktor.kubicek@yageo.com
For General Information Contact	Please contact your Account Manager for any additional information required
