PCN (Product Change Notification) reference: **2025/15**

Subject: New Qualified Vendor for Sputtered Au Targets

Dear Customer:

This notification details the qualification of a new vendor for Sputtered Au Targets. Historically, this item has been sole sourced. Recently we have qualified a new vendor as a second source to purchase Sputtered Au Targets from.

The addition of this vendor was necessary to ensure business continuity as we are trying to move away for sole source items that are critical to business. Over the next year the use of targets from the new vendor will be implemented into the manufacturing process. The use of targets from the new vendor will be traceable to the batch numbers and subsequent sputter runs.

A qualification report is available for review by request. The qualification has been completed for both the TF and SLC product lines.

Please provide PCN approval, or any request for further information, to the Knowles Customer Service Representative who submitted this PCN.

Yours sincerely,

Patrick Cole
Quality Manager

PCN Details

PCN reference: 2025/15

PCN Issue Date: December 10, 2025

Product: All product containing sputtered Au

Request Description: New Qualified Vendor for Sputtered Au Targets

Reasons for Request: Business continuity

Changes to Form,
Fit or Function: None, all requirements will still be verified through necessary testing

Changes to Quality
or Reliability: None, all requirements will still be verified through necessary testing

Changes to Part
Numbers: No, remain the same

Qualification
Results: Pass

Are Samples
Available? No

Implementation date: 1/1/2026

Please find below the list of parts that TTI have purchased from Knowles that will be effected by this PCN.
