Product/Process Change Notification For:

Administrative Correction of Part Number Suffix Structure

Dear Valued Customer:

Thank you for your continued support of KYOCERA AVX. We are writing to formally notify you of a change affecting some of our products. Please review the details below and provide your feedback in writing by the specified due date. We appreciate your understanding and cooperation.

1. Overview:

KAVX is issuing this notification to inform customers of an administrative correction to the part number suffix structure for selected product series. This change does not affect product form, fit, function, reliability, materials, manufacturing process, or manufacturing location.

2. Description of Change:

The following suffix adjustments will be implemented to ensure correct product identification and global system alignment.

3. Details:

■ 6208 Series

For part numbers where the last three digits (a.k.a. plating code) are:000+, 001+, 002+, 022+
→ A branch suffix “/” will be added where applicable.

■ 6210 Series

Variation code 940 → No “A” suffix required

Variation code 340 → “A” suffix required

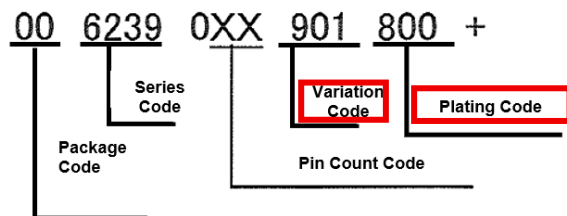

■ 6212 Series

Variation code 940 → No “A” suffix required

Variation code 340 → “A” suffix required

■ 6892 Series

Variation code 201 → “T” suffix will be added

※『+』 Indicates RoHS compliant item.

4. Reason for Change:

This correction is being implemented to:

- 1.Align part number structure with current KAVX system standards
- 2.Ensure consistency in global product identification
- 3.Improve traceability and documentation accuracy

5. Impact Assessment:

Form: No change

Fit: No change

Function: No change

Reliability: No change

Qualification status: No requalification required

This is an administrative update only.

6. Implementation:

Effective immediately.

Products shipped before and after implementation are identical in design and performance.
