Product Label Update for Temperature Sensor

Dear Valued Customers:

Littelfuse, Inc. would like to inform you of the update in our standard labels. This change will not generate any change to actual order/s and will be transparent to all our customers

Addition

We are adding an internal Littelfuse part number, example: NXUJ103F3T1NFB001
Which is noted as "Supplier Part No." (Fig. B)

Customer ordering part number will remain the same and its stated as "old part number" (Fig. B)

This notification is for your information and acknowledgement. Implementation of the label update would be with immediate as of March 21, 2022

Should you have any questions or require additional information, please contact your local Littelfuse sales representative.

Sincerely,

Michel Ramirez
Product Manager – Temperature Sensors
Industrial Business Unit
Littelfuse, Inc.

Hi William,

I confirmed that our new nomenclature for Old P/N A64635 is **NXUD7X0J2U1NEE001**.

I will share to you the PCN related to this changes once I have it.

Regards,

Joshua
