PCN DETAILS

- **Component mold tooling will be transferred from Lincoln, Nebraska USA to Nogales, Mexico where they are assembled into finished goods.**
 - This transfer is a component sourcing change only, Nogales will make instead of buy from Lincoln
 - Buffer stock will be available for most p/n's to ensure a smooth transfer
 - No change to the finished good manufacturing process or country of origin
 - No resin supplier changes are being made, same source and mfg location as used by the Lincoln plant
- **Product Impact – none, no change to form, fit or function**
- **Qualification**
 - To ensure a complete and thorough qualification, all component molds will be requalified after being transferred. Furthermore, a finished good p/n from each impacted assembly work center has also been selected for qualification purposes and identified in the following chart including transfer and implementation schedule.

PCN will be implemented once all required qualification/ validation has been completed and all necessary approvals have been obtained to this PCN
