PRODUCT: G2R (select models) – PCB Power Relays
TYPE: DISCONTINUATION – Partial

Partial Discontinuation G2R (select models) - PCB Power Relays

In an effort to streamline our product offering, Omron will discontinue select models of our G2R series of PCB Power Relays; effective March 31, 2026. Although the PCB Layouts of the suggested replacements are an exact match to the discontinued relays, many of these relays will have no direct replacements due to electrical ratings for the output and coil. However, for new circuit designs, Omron recommends consideration of the standard models of G2R, G2RL or G5RL relays. The following notice will list the models affected by the partial discontinuation; should you have any questions, however, please communicate with the Relay Product Manager.
