REASON FOR CHANGE: DISCONTINUATION

DESCRIPTION OF CHANGE: (Required)

Panduit is implementing a running change to the shielded Mini-Com® jack portfolio to improve visual identification while maintaining Panduit’s trusted quality. The ratcheting wire clip in the TG wire caps will now be color-matched to the jack category (blue for Cat 6A, white for Cat 6, and red for Cat 5e).

This update does not alter the functionality or compliance of the product—Mini-Com jacks will continue to deliver the same best-in-class quality and performance customers expect. The category-matched clips will begin entering inventory in Q3 2025, and customers may see mixed inventory during the transition period.
