|------------------------------------|---------------------------------------------------------------------|
| <b>Title / short description</b>   | New position of the PE symbol on the standard modular carrier frame |
| <b>Affected article category</b>   | Connector                                                           |
| <b>Change category</b>             | Form and appearance                                                 |
| <b>Change number</b>               | CAF260015-00                                                        |
| <b>Reason for PCN/PDN Revision</b> |                                                                     |

### Purpose/objective of the change

The position of the PE symbol for marking the protective conductor contact is being adjusted.

### Detailed description of the change

As part of the continuous improvement process, the position of the PE symbol for marking the protective conductor contact is being adjusted. The new position offers better visibility. The function of the items remains unchanged.

### Identifying characteristics

Position of the PE symbol on the modular carrier frame.

Welcome

# CAF260015 change of the PE symbol position

# CAF260015 change of the PE symbol position

## Detailed description of the change

As part of the continuous improvement process, the position of the PE symbol for marking the protective conductor contact is being adjusted. The new position offers better visibility. Product specifications, quality standards, and compliance requirements will remain unchanged

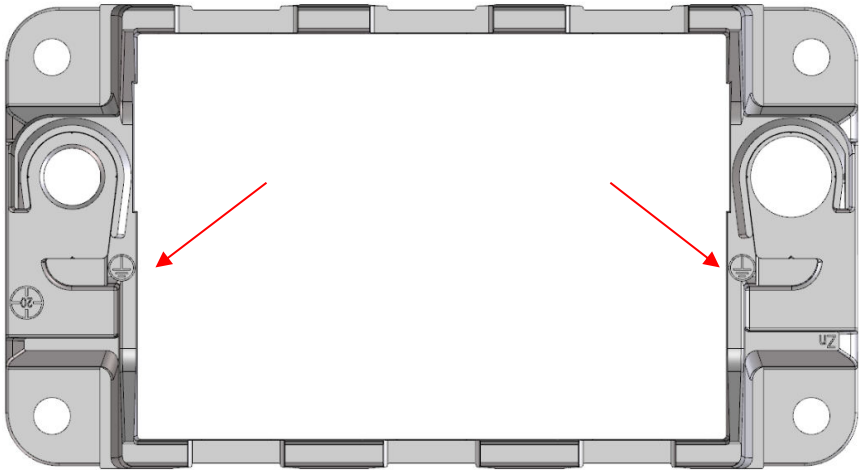

## Identifying characteristics

PE symbol location on the article.

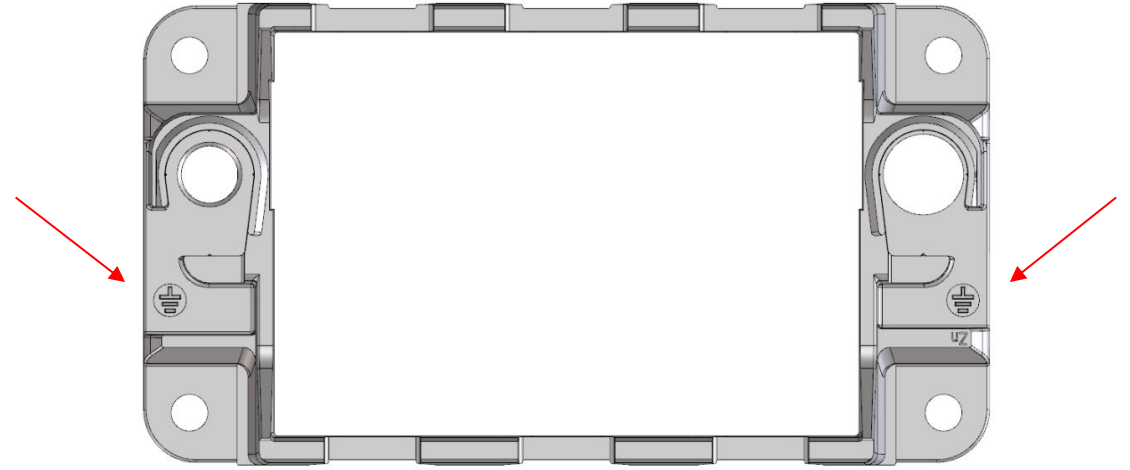

# CAF260015 change of the PE symbol position

The changes are applied to the frame sizes B06,B10,B16 and B24
