PT-2025-017	REQUEST FOR A MAJOR INDUSTRIAL CHANGE		

	NOTIFICATION OF A MAJOR INDUSTRIAL CHANGE		Request identification:	
	Products or business concerned General (<i>concerns all products</i>) PT-2025-017 All products families			Product Description: P/N: Specification(s):
Type of industrial change <input type="checkbox"/> Relocating a production facility <input type="checkbox"/> Relocating a piece of equipment <input type="checkbox"/> Change in the means of transport <input checked="" type="checkbox"/> Other (<i>to be specified</i>): adding new subcontractor				<input type="checkbox"/> Changing E.R.P / P.L.M <input type="checkbox"/> Organizational change (management system; change in production or sales flows, key personnel)
Description of industrial change Our current qualified contacts supplier (screw cutting) located in California, USA is managing internally all operations linked to the contact manufacturing (machining, heat treatment, color banding etc...) except the gold plating operation. This operation is carried out by a subcontractor. In order to mitigate the risk, Radiall wants to qualify a second subcontractor for the gold plating operation. Production activity impacted: gold plating				
Motive(s) for the industrial change Radiall wants to qualify and add another gold plating subcontractor to the current contacts supplier for industrial risk mitigation.				
Identification, assessment and elimination of risks associated with industrial change <i>(if there is an existing FMEA attach it to the request)</i>				
Risk identified	Risk assessment	Action plan for risk elimination		
Only one gold plating subcontractor for Radiall contacts supplier	N/A	Add a new gold plating subcontractor to Radiall's contacts supplier		
Implementation date (relevant schedule) Expected introduction of parts using the new gold plating subcontractor: July 2026				
Additional Information Refer to attached presentation				
Approval of industrial change
