Description of Change: The affected part numbers listed in this notification will be moved to an AEC-Q200 and IATF 16949 qualified factory. The transferred parts will use a standard process / material set which changes the metal stack for the product. This will bring increased efficiency and increased capacity. The changes to the part number ordering nomenclature will be the replacement of IGBR Pd ("P") and Ni ("N" & "T") Backside Metal options with NiV/Ag ("S") – See online datasheet comparison for details. The new ordering code IGBRxxxxxxxSAST, which has the same product performance, fit and form as the current IGBR product except for packaging which will change from waffle packs to diced-on-tape format. There will be no changes to the specification limits at final test associated datasheet specifications.

Please NOTE: This PTN does not override or invalidate the previously issued PTN-TF-001-2026

Reason for Change: AEC-Q200 qualified factory and part numbers with increased capacity are replacing the discontinued backside metal options.

Expected Influence on Quality/Reliability/Performance: N/A

Part Numbers/Series/Families Affected: Please see materials list on the succeeding page.

Vishay Brand(S): Vishay Electro-Films

Time Schedule:

Last Time Buy Date: Tuesday December 1, 2026

Last Time Ship Date: Monday June 14, 2027

Sample Availability: Qualified samples of replacement product are available immediately
