Type of Change	Product Change
-----------------------	----------------

Description of Change	<p>We would like to inform you of an upcoming change to the packaging used for our silver plated terminals.</p> <p>As part of Yazaki's ongoing commitment to environmental stewardship, we are eliminating individual plastic bags and desiccant from our packaging. This improvement supports our global sustainability initiatives by reducing single use materials and minimizing overall environmental impact. The updated packaging aligns with similar automotive terminals in the market. Product protection, quality and performance remain fully maintained with this change and our engineering team confirmed there's no impact to part integrity.</p>
